The object of the **Firearm Safety Training Course** is to encourage all sections of the community to practise firearm safety and ensure that all persons, prior to being granted a shooter’s licence, have received basic **Firearm Safety Training** and instruction in basic **safe firearm handling procedures**.

You may be new to the sport of shooting; you may be an old hand; you may be a rifle shooter, a shotgun shooter or an air rifle shooter, it does not matter. All of the **firearm safety rules** and **all of the safe handling procedures** discussed are the same for whatever type of firearm you intend to use. You can learn from this course and put into practise the firearm safety rules to enjoy the sport of shooting.

This accredited firearm safety training is a prerequisite to obtaining a Queensland Firearms Licence. Please note that an additional payment to Queensland Police Services is required to obtain a firearms licence (subject to eligibility requirements).
